

Serving survivors of gender-based violence

The Tahirih Justice Center is a national, nonprofit organization that serves women, girls, and other immigrant survivors fleeing gender-based violence. Our interdisciplinary, trauma-informed model of service combines free legal services and social services case management with bridge-building policy advocacy and research-based training and education. Our programs efficiently and effectively leverage donated professional services from a vast network of attorneys, medical professionals, and other experts to serve as many immigrant survivors as possible. By amplifying the experiences of survivors in communities, courts, and Congress, Tahirih's mission is to create a world in which all people share equal rights and live in safety and with dignity.
